

alright, so... that was originally supposed to be the end of the original document. i originally wrote all the previous stuff on october 22nd. as i am writing this it's november 3rd. and stuff has gotten... much, much weirder. im not going back to edit the previous parts of the document as i consider it a waste of time and also my point still fucking stands. what you're going to see going forward is basically just a bunch of events that occurred AFTER i made the original draft for this drive folder and showed it to some close friends. please read this too. i consider it pretty important.
